CST Distinguished Alumni Award Selection Committee

[◀ Back to top](#)

Central Michigan University is proud of the growing number of alumni and is able to recognize their achievements by bestowing a variety of awards upon them. The College of Science and Technology (CST) honors an alumnus each year who has significantly contributed to their field of endeavor, exhibited exemplary leadership, and benefits society as a whole with the Distinguished Alumni Award.

Members of the CST Distinguished Alumni Award Selection Committee examine biographical information submitted for each nominee. Committee members also utilize a spreadsheet tool to apply weighted scores for each of the criteria categories. Members discuss each nominee's achievements and consider their respective scores during the process of selecting the Distinguished Alumni Award winner(s).
