

Spectrum newsletter

Spectrum is a newsletter for the faculty, students, staff, and friends of the College of Science and Technology. Published twice a year, we hope that it brings you up to date on what we are doing, and our future plans.

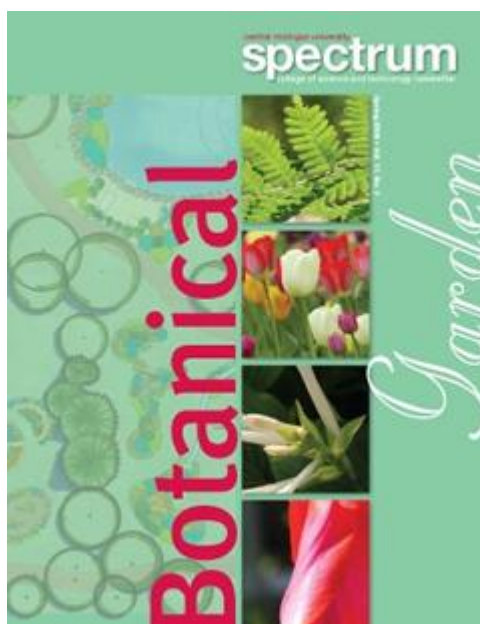

Everyone is encouraged to [send us an update](#) on your lives, careers, families and other news you feel might interest your fellow alumni. Your news will be published in the *Spectrum* alumni newsletter and also online under the [Alumni News](#) section of the CST web site.

We appreciate our CST family, and hope that you will enjoy reading and learning more about us.

NEW! Spectrum survey

Dear *Spectrum* readers,

Welcome to the [Spectrum newsletter survey](#).

Spring 2008 issue of *Spectrum*

Twice each year, the College of Science and Technology reconnects with more than 19,000 alumni and friends when we mail *Spectrum*, the college newsletter. This 16-page publication is packed with current information about the college's academic programs, faculty and student research, alumni activities, fundraising excellence, historical features, and much more.

We already receive a good deal of feedback on this publication, but we'd like to learn more. This short survey will help the college continue to improve the newsletter and provide you with the kind of stories and photos you most enjoy.

The survey should take no more than 10 minutes to complete. The results will be used only by CMU, and any personal information you provide will not be shared or sold. [Click here to take the Spectrum newsletter survey](#).

We thank you in advance for your feedback!

Dr. Ian R. Davison

Dean, College of Science and Technology
