

CENTRAL MICHIGAN UNIVERSITY
Department of Mathematics
Application for Internship in the Ph.D. Program

NAME _____ Student # _____

GRADUATE FACULTY SUPERVISOR (*):

- State the course number and the section (class meeting times) for the course that you are applying to teach.

- Give a brief rationale describing why you wish to teach the course.

- State your qualifications for teaching the proposed course. This may include items such as coursework taken at the graduate level or experiences taken from industry or other practical settings.

- If this is your second internship, attach a summary describing your first internship.

This statement affirms that I have read the internship internal document. Furthermore, I understand the requirements for the internship and have had the opportunity to receive any clarification.
